

Dixon High School

Home of the Mighty Rams

Dear Eighth Graders and Parents,

I would like to give you an early greeting to the Dixon High School Family! I would like to extend a warm welcome for you and your child to visit our campus. The staff and I are looking forward to working with you and your children this upcoming year as we strive to continue to provide an exciting and rewarding educational program for each and every student at Dixon High School.

New Freshman / Parent Informational Meeting

Dixon High School Counseling Staff is offering an evening informational meeting designed for incoming ninth graders on Thursday, March 12, 2009 from 6:30 - 8:30pm in the DHS Gymnasium. Parents and students will have the opportunity to meet administrators and counselors, hear information about attendance procedures, academic requirements, ask questions about school and athletic programs, and preview scheduling materials, including course request forms and course descriptions.

Student scheduling for 2009 - 2010

DHS counselors will meet with all eighth graders on Tuesday, March 17, 2009 at CA Jacobs to assist students in choosing their freshman classes. Because the course requests will be completed and turned in on that day, we encourage parents and students to talk about their choices BEFORE the scheduling date at CA Jacobs.

The staff and I look forward to working together with you, your child, and with the community to ensure a successful new school year on our beautiful Dixon High School campus.

Please call the Dixon High School Counseling Center at (707) 693 – 6331 or contact us by email (first initial, last name @dixonusd.org) if you have questions.

We hope to see you all here on March 12th!!!

Sincerely,

Ivan Chaidez, Principal
Phoebe Girimonte, Assistant Principal
Cindy Moody-Perkins, Assistant Principal

Lynne deBie, Counselor (A – Ga)
Ricardo Rodríguez, Counselor (Ge - M)
María Hernandez-Becerra, Counselor (N - Z)
Conchita Guerrero-López, Migrant Ed Counselor

Dixon High School Mission Statement

“The mission of the Dixon High School community is to educate its students in the many academic and social disciplines. Equally important are the skills that are developed as students mature: responsibility, sensitivity, awareness, and independence in our complex, multi-cultural world.”
