Dear Community Member:

Reagan Elementary is one of our newest schools in Sanger Unified. Our Parent Teacher Organization (PTO) is working hard to establish funding so we can contribute to the development of the school and provide resources for our children.

As part of a fundraising effort we are starting a Reagan Red Hawk PTO Drive. This drive simply asks if you are willing to donate funds to help us get started in building an account that can support our student needs.

Being a new school with limited funds means we have many needs. However, the greatest areas of need are providing on-going resources and books for our library, technology development, student body activities and field trips.

Although the school did receive a start up allocation to get the library going in the right direction, the school and community are looked upon to provide further funding to meet the schools needs as our community grows into its facility.

Attached you will find a donation flyer explaining each level of donation. Again, thank you for your donation and care in helping to develop quality schools in the Sanger Unified School District.

Sincerely,

Reagan Elementary Parent Teacher Organization (PTO)
PTO President, Sonia Gomez
