

Ecosystem Booklet

You will be creating a booklet on Ecosystems. The booklet will include the following information:

Front Page: (5 pts.)

Title: Ecosystems throughout the World

Name: Your Name

Page 1: (5 pts.)

Ecosystem: What is an ecosystem?

Living Parts of an Ecosystem: Name five living parts of an ecosystem

Nonliving Parts of an Ecosystem: Name five nonliving parts of an ecosystem

Page 2: Desert Ecosystem (10 pts.)

Picture: You may draw a picture; locate one on the internet, or in a magazine. Your picture may include different types of animal and plant life located within that ecosystem.

Location: where can you find one?

Climate: what is the weather like?

Plant Life: what types of plants are located there?

Animal Life: what kinds of animals live there?

How have plants and animals adapted to their surroundings? List at least one to two examples.

Page 3: Grassland Ecosystem (10 pts.)

Page 4: Tide Pool Ecosystem (10 pts.)

Page 5: Forest or Rainforest Ecosystem (10 pts.)

Page 6: Antarctic, Arctic, Meadow, Swamp, or Coral Reef Ecosystem (10 pts.)

Each page may be written in cursive or typed. You may use your textbook, the books that I have provided you from the library, or the internet for your research. I will be grading you on your grammar, spelling, content, and neatness. I would not recommend markers for this project.

Total: _____ (60 pts.)
