Dear Parents,

Attached you will find your child's first progress report. We have been working on many skills and they have been having so much fun learning such skills as:

- The days of the week
- Months of the year
- Punching out the letter sounds
- Sorting
- Graphing
- Estimating
- Sight words
- Patterning
- And many more!!!

Through all of our activities I have been able to notice progress in a very short time. We are getting into our school routines and some need more direction than others but every child grows and learns at different times. We are becoming a classroom family. It is so nice to see children seeking other children out to play with, calling them by name and laughing as they play.

The progress report allows me to share some of my observations with you. I would also like to hear from you about how you feel your child is doing. Have you noticed progress? Have you noticed areas your child needs reinforcement with? Or any additional information you would like to share. Thank you,
