

SUPPLIES NEEDED FOR MR. MARSHALL'S MATH CLASSES (Room 143)

These are the recommended supplies for both of your child's math classes. They are to be thought of as one subject, so you only need to buy supplies once. However, you must bring them to class every day. The Research I class is an extension of M/J Math 1, your child's core math class. It is used to provide adequate time to cover the required curriculum, reinforce difficult concepts, and enrich your mathematical experiences with challenging, creative, hands-on activities.

Choose one of these options:

3-ring binder (10r 1.5 inch) Dividers (5) Notebook paper Optional: spiral notebook for notes	Spiral notebook with or without sections (2 or 3) and with pockets	Spiral notebook without sections Duo-tang with pockets
-------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------	-----------------------------------------------------------

Choose one of these options:

Mechanical pencils with lead and a good eraser (preferred)	#2 pencils with a good eraser and a small pencil sharpener that holds the shavings
------------------------------------------------------------	------------------------------------------------------------------------------------

You will also need:

- A Resealable Bottle of Water or Other Beverage Every Day
(Water breaks will only be permitted during class in cases of emergency)

You will not need:

- A Calculator
(Calculators are not used in 6th grade)

CLASSROOM WISH LIST:

Tissues Hand sanitizer Pencils Notebook paper
