

Operation Draw

This project is due on Monday, November 2, 2009.

You will need **FIVE** pieces of paper. It cannot be notebook paper.

You can use typing, construction, or colored paper. If you need help with supplies, please come before or after school.

Each sheet must be no smaller than $\frac{1}{2}$ the size of a piece of typing paper.

On each piece of paper, you will write one sentence & have two drawings.
No two drawings may be the same.

You must base all sentences on your original conditional statement.

Example:

Conditional: If it is nice outside, then my dog will play.

Converse: If my dog plays, then it is nice outside.

Inverse: If it is not nice outside, then my dog will not play.

Contrapositive: If my dog will not play, then it is not nice outside.

Biconditional: It is nice outside if and only if my dog will play.
