

	Terms on AP Exam that are not in Myers' Psycholo	June 3, 2008	
1	Abstract Learning		
2	Achievement Motivation Studies (David McClelland)		
3	Afferent Neurons		
4	Ainsworth Strange Situation (Paradigm)		
5	Albert Ellis – Rational Emotive Therapy (RET)		
6	Androgyny		
7	Anterograde Amnesia		
8	Anxious/ Ambivalent Attachments (Resistant Attachments)		
9	Apparent Motion		
10	Approach-Approach Conflict		
11	Avoidance-Approach Conflict		
12	Avoidant Attachments		
13	Babinsky Response		
14	Back-masking (in Music)		
15	Backward Conditioning		
16	Barnum Effect		
17	Brainstorming		
18	Central Route to Persuasion		
19	Chaining		
20	Character Disorder: Major Ones		
21	Clever Hans Experiment		
22	Color Blindness: Kinds		
23	Community psychologist		
24	Conflicts: Four Kinds		
25	Contingency Model (Classical Conditioning)		
26	Conversion Disorder		
27	Deeply (or Elaboratively) Processed Memories		
28	Deinstitutionalization		
29	Denial		
30	Descriptive vs. Inferential Statistics		
31	Determinism		
32	Discriminative Stimulus		
33	Dissociative fugue		
34	Divergent vs. Convergent Thinking		
35	Dominant Responses (aided by Social Facilitation)		
36	DSM Axes		
37	Efferent Neurons		
38	Eidetic Memory		
39	Engram		
40	Ethnocentrism		
41	Expectancy Theory		
42	Feature Analysis		
43	Feral Children		
44	Fetal Alcohol Effect		
45	Francis Galton's Research		

46	Frequency Polygon		
47	Galvanic Skin Response (GSR)		
48	Gansfeld Procedure		
49	Garcia Effect		
50	Generalized Reinforcer		
51	Genotype and Phenotype		
52	Gustatory Sense		
53	Haptic Memory		
54	Hawthorne Effect		
55	High vs. Low Self-Monitors		
56	Histogram		
57	Hybrid		
58	Hypochondriasis		
59	IDEAL (Strategy for Solving Problems)		
60	Identification vs. Internalization (Freudian Terms)		
61	Identity foreclosure		
62	Identity moratorium		
63	Idiographic Theorists		
64	Induced Motion		
65	Inductive vs. Deductive Reasoning		
66	Inferiority (Adler)		
67	Information-Processing Theory		
68	Instinctive Drift		
69	Instrumental Conditioning		
70	Intellectualization (Freud)		
71	Intern's Syndrome		
72	Internal Consistency Reliability		
73	Internalization		
74	Klinefelter's Syndrome		
75	Kubler Ross' Stages of Dying		
76	Lateral Geniculate Nucleus (LGN)		
77	L-dopa		
78	Learning Curve		
79	Metacognition		
80	Milieu Therapy		
81	Motion Aftereffect		
82	Motion Parallax		
83	Multiple Approach-Avoidance Conflicts		
84	Negative identity		
85	Nomothetic Approach		
86	Novelty Preference		
87	Omission Training		
88	One Eye Problem – What couldn't you do well if you only had one eye?		
89	Optic Chiasm		
90	Optic disc		
91	Organ of Corti		

92	Pancreas		
93	Paraphilias		
94	Paresis		
95	Persona (Jung)		
96	Personal fable		
97	Personal-Construct Theory		
98	Phenylketonuria (PKU)		
99	Photoreceptors		
100	Pineal Gland		
101	Premack Principle		
102	Primacy Effect		
103	Protected Sleep		
104	Proximity (Effects on Relationships)		
105	Rational Emotive Therapy		
106	Recessive vs. Dominant Genes		
107	Reflex Arc		
108	Second (or Higher)-Order Conditioning		
109	Self-efficacy		
110	Shadow (Jung)		
111	Shallowly (or Maintenance) Processed Memories		
112	Simultaneous Conditioning		
113	Sleeper Effect		
114	Somatoform Disorders: Major Kinds		
115	Somatosensory Cortex		
116	Somatotype Theory		
117	Stratified Sampling		
118	Sublimation (Freud)		
119	Superiority (Adler)		
120	Syllogism		
121	Tay-Sachs Disease		
122	Tourette's Syndrome		
123	Trace Conditioning		
124	Tragedy of the Commons		
125	Triadic Reciprocity		
126	Turner's Syndrome		
127	Water Balance (Role of Hypothalamus)
