

Leopard Printing

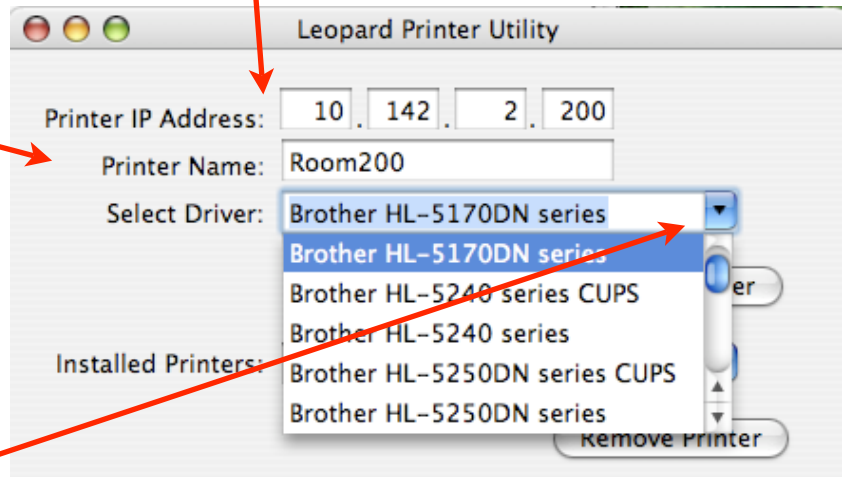

1. Open the **Printer Utility** by clicking on the printer icon on the dock.
2. Type the **IP address** for the printer you want to use.

3. Give your printer a **name**.

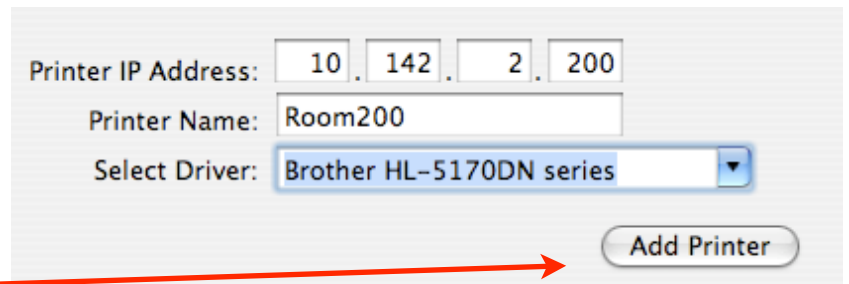

Please do not use spaces

in the name. (Room 200 should be just one word).

4. **Select** the correct **Driver**

for your printer by clicking on the down arrow and selecting it.

5. Click on **Add Printer**.
