

# Theme Project

## La Comida

### Vacaciones para la salud

**Overview:**

You will create a brochure describing a typical day at a health resort. The brochure will include a schedule of the day's activities and descriptions of breakfast, lunch, and dinner. Photos or drawings will accompany each meal and one of the activities listed. Then you will present the brochures to the class as if you were a sales representative from the resort.

**Materials:**

Construction paper, magazines, scissors, glue, colored pencils and markers

**Sequence:**

- STEP 1. Review the instructions with your teacher.
- STEP 2. Submit a rough sketch of your brochure. Incorporate your teacher's suggestions into your sketch. Work with a partner and present your sketches to each other.
- STEP 3. Do a layout on construction paper.
- STEP 4. Submit a draft of your meal descriptions and schedule.
- STEP 5. Complete your brochure and present it to the class, trying to "sell" your health package to classmates.

**Assessment:**

Your teacher will use the rubric on the following page to assess this project.
