# BLUE BETTA ACTIVITIES

## “FALL” INTO LA

~In Grammar we are working with pronouns. We will have a quiz next **Thursday, October 22<sup>nd</sup>**.

~Tomorrow, Students will receive their new word lists for Spelling – Words Their Way. The test will be on **Wednesday, October 21<sup>st</sup>**. Students will all do the same list for six weeks to learn how to do the sorting and HW. Then, I will begin to divide the class into more than one list according to strengths and weaknesses. No HW in Spelling this week. We will do it together in class.

~Next week, I will be calling students up to share their Reading Benchmark scores, provide feedback on their Timed Writing piece, as well as discussing their Spelling Inventory. This may take a couple of weeks as I rotate through the class to talk with each student. Next **Friday, October 23<sup>rd</sup>**, we will take the Reading MAP test during LA class.

~This week our focus in writing is the Personal Narrative.

~In Reading, we will do short Reading warm-ups. We will also begin our novel, LOSER by Jerry Spinelli – all students must bring his/her own copy of the book to class each day.

## Math

This week's objectives are:

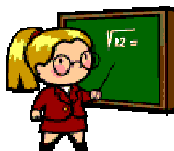

Division !  
Division !  
Division !

We will be dividing by 2 digits

Drops 13 & 14 are due Thursday.

Test Friday

Thank you,  
Jann Hardin

 You can start a  
chain reaction...

Rachel's Challenge

## Social studies

Students will finish their Exploration Unit this week. We will end the week with our “diving” for artifacts partner activity. Due to the crazy schedule on Friday, some classes may not get finished. With that being said, Monday will be the last class time to work on the activity. Ch. 4 open book test will be on Tuesday, Oct. 20<sup>th</sup>. Please encourage your child to take their time and find the test answers in the textbook. Scores were low on our first test, due to students rushing through their work. We will then begin Ch. 5- Routes of Exploration.

Juliana had the H1N1 flu last week, and her brother is starting to show the early symptoms. Hopefully, he started the Tamiflu in time. Fingers and toes are crossed that the flu bug has left the Hunt house for good!

~Proud to be your teacher~  
Mrs. Hunt

## SCIENCE

We are beginning our unit on weather. The students will be learning about temperature, air pressure, humidity, wind, and how their interactions produce weather. The students will be starting a Weather Menu project in class this week. They will have class time to complete their activities and might need to add on the finishing touches at home.

There will be a vocabulary test over this unit on Monday, October 26th.

Thank you,  
Mrs. Bonnette
