What is Instructional Technology?

Personal Vision of Technology Integration (3 pts)

BEFORE completing the assigned readings, reflect and record your thoughts about the following :

- I. What does the term “Technology Integration” mean to you?
- II. How might a classroom that effectively integrates technology in the curriculum operate/appear differently than a “traditional” classroom?
- III. What do you think the key skills and knowledge are for students in today’s world, whether preparing for college or for the workplace?

Your reflection should be 100-200 words **in OUTLINE format**. Use the MSO Word formatting tools to put the Questions as top level (Roman numerals) and the main points of your response as capital letters with supporting points in subsequent levels.

After Reading the Required Articles , complete the Reflection about Readings (12 pts)

Upon completion of the assigned readings, write 200-300 words about the following in **Outline Format** (see above):

- I. How was your vision of Technology Integration different than the authors of the readings? How do the experts say technology should be integrated?
- II. What is the New Literacy (ICT Literacy)? List the Key Issues
- III. How did you do on the Information Literacy Quiz? Were there any questions/answers that surprised you?
- IV. What is meant by the Read-Write Web? What are the 8 tools and the 5 implications for education?
- V. Compare the Virginia TSIPs to the NETS-T standards.
- VI. Compare the Va. SOLs Computer/Technology for students K-12 to the NETS-S standards.
