## TeacherWeb Wins AWARD OF EXCELLENCE for its Classroom/School Websites Announced by *TECHNOLOGY & LEARNING* MAGAZINE

**Ridgefield, CT. October 9, 2007** – TeacherWeb® is proud to be among the winners of the Awards of Excellence winners announced by Technology & Learning magazine in its prestigious 25-year-old recognition program. Software and Web products being honored include innovative applications that break new ground in some important way and also best-of-breed examples that demonstrate clear superiority over similar products in the market. This year's winners were chosen by more than 30 educator-judges who test-drove over 120 entries, logging in many hours in computer labs at San Francisco Bay Area schools.

"This year's winning products reflect an impressive effort by publishers to respond to the real needs of schools." said Susan McLester, editor in chief of *Technology & Learning*. "The offerings being honored are practical, innovative and central to a variety of district and site operations."

"We are thrilled to be among the winners of this award," says TeacherWeb founder and president Jeanne Bodnar. "With our continual innovations, such as our new RSS feed and text messaging capability, TeacherWeb has become the industry gold standard for classroom websites, enhancing communication between the classroom and home."

Those interested in more information about TeacherWeb should email [info@teacherweb.com](mailto:info@teacherweb.com) or visit [www.TeacherWeb.com](http://www.TeacherWeb.com).

### **About the Company**

TeacherWeb® is a registered trademark of TeacherWeb, Inc. a privately-owned Delaware corporation that is the leading provider of non-HTML template websites for teachers' use in the classroom. The ease of use for which TeacherWeb® is known, as well as the great degree of accompanying customization and flexibility and ability to integrate school-wide, is accomplished through a proprietary patented technology which is recognized as unique throughout the industry. TeacherWeb® was launched in 1996 by Jeanne Bodnar. Staff includes software engineers, marketing associates, and customer support staff.
