## ***Free WebQuests in Searchable Database at TeacherWeb®***

*Over 3,300 -- Created by teachers, for teachers -- All available for free*

RIDGEFIELD, CT (May, 2006) – What is a WebQuest? It is a teaching tool designed by teachers, allowing students to work together or individually on the web on a specific project. In addition to gaining in-depth knowledge of the subject matter, they teach higher-order thinking, team-work and internet skills. And presentation skills. It's little wonder that students enjoy WebQuests so much.

TeacherWeb Inc., the leading provider of websites for educators, is also the leading source for free WebQuests for teachers with over 3,300 available right now in the Search Index at its website ([www.TeacherWeb.com](http://www.TeacherWeb.com)) – at no charge. And the number keeps growing as many more are added each month. These valuable tools have been developed by teachers, for teachers over the past several years.

Says Jeanne Bodnar, president of TeacherWeb: “WebQuests are amazing educational tools. I am proud that TeacherWeb has one of the largest, if not the largest collection available to teachers in a search-able database. Teachers have spent a lot of time and effort, carefully designing these WebQuests.” Interested teachers should visit [www.TeacherWeb.com](http://www.TeacherWeb.com), or directly to <http://TeacherWeb.com/TWQuest.htm>.

### **About the Company**

*TeacherWeb® is a registered trademark of TeacherWeb, Inc. a privately-owned Delaware corporation that is the leading provider of non-HTML template websites for teachers' use in the classroom. The ease of use for which TeacherWeb® is known, as well as the great degree of accompanying customization and flexibility and ability to integrate school-wide, is accomplished through a proprietary patent-pending technology which is recognized as unique throughout the industry. TeacherWeb® was launched in 1996 by JeanneBodnar, who is the president, and by a partner in charge of web design who has since retired. Jeanne is an entrepreneur by nature, having had previous businesses as a telecommunications consultant and as the first internet access provider in the town of Ridgefield, CT. Her staff includes software engineers, marketing associates, and customer support staff.*
