

How to Make a Hard Cover

Cut two pieces of cardboard. The cardboard should be about 1/4 of an inch larger than the size of the paper you are using.

Place the two pieces of cardboard on a piece of cloth. Leave one inch between the two pieces of cardboard and 1/2 inch around the outer edge.

Mix Elmer's Glue and water. Coat one side of the cardboard with the mixture and place the painted side down on the cloth. Then do the other side.

Paint the edge of cardboard and fold the material over the

outer edges.

**Let it dry. *You make have to put it under something heavy and flat to
straight it out, if it curls up.**

Place the pages of your story in the middle.

Staple the pages through the cloth you left between the cardboard.
