

Pyramid Book on AppleWorks Draw

1. Select AppleWorks Draw
2. Go Window to Page view
3. Minimize page, so you can see the whole page a one time without having to scroll.

4. Draw a Square

*Hold down the shift key while you draw the square tool. This will help the square maintain its shape.

5. Use the Line tool to draw diagonal lines and divide the square into 4 equal parts

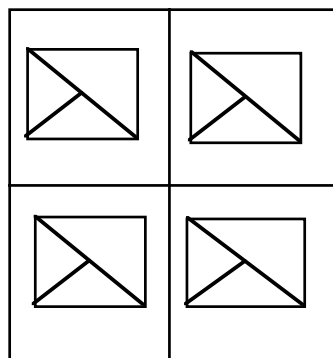

6. Go to Edit select all.

7. Then go to Format - Group

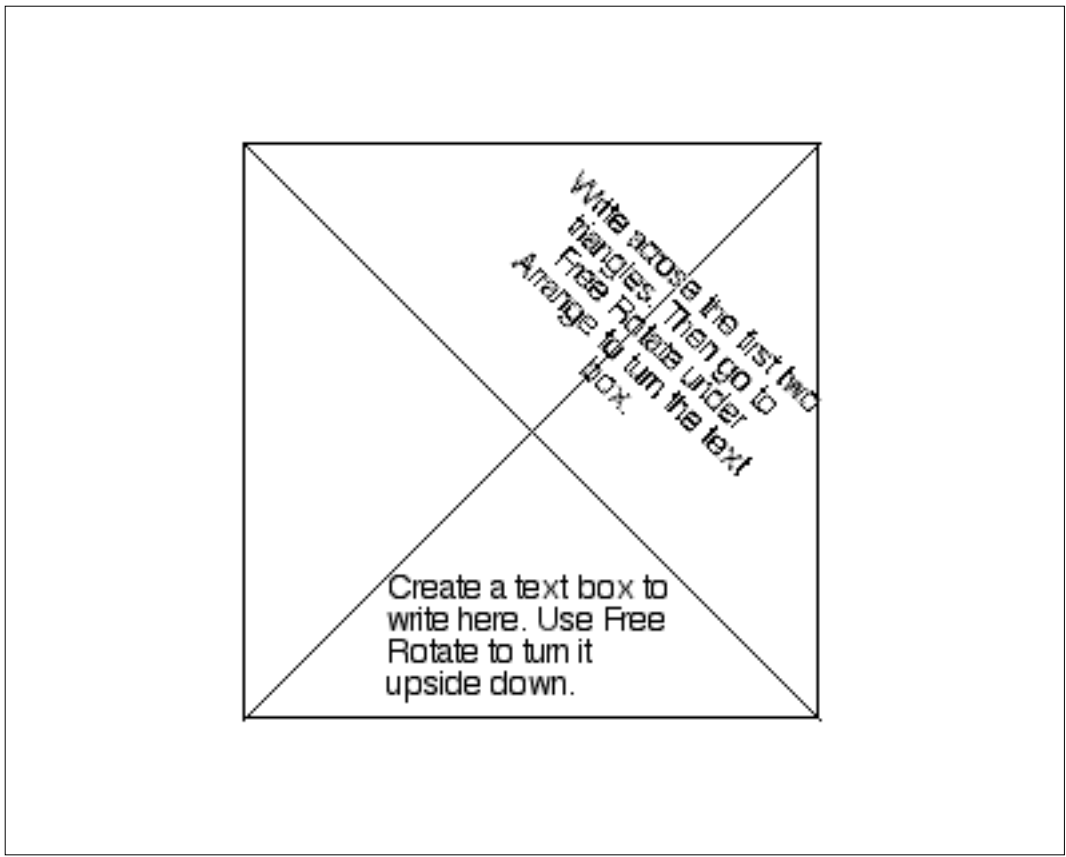

*Now the square and the lines are grouped together as one object.

8. Go to Format - Document, change Pages Across to 2, Pages

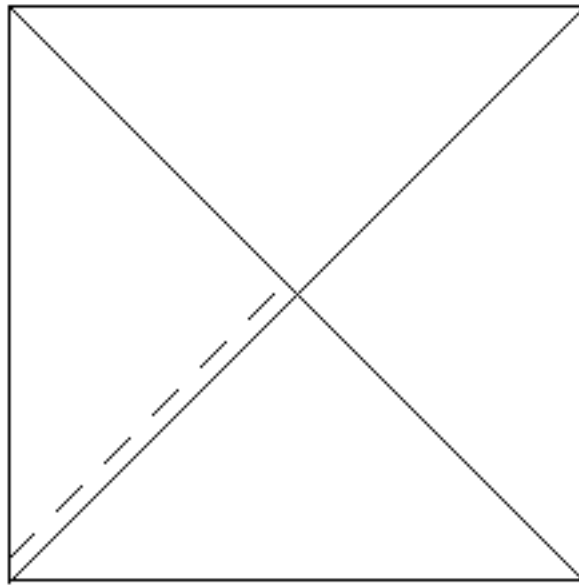

Down to 2.

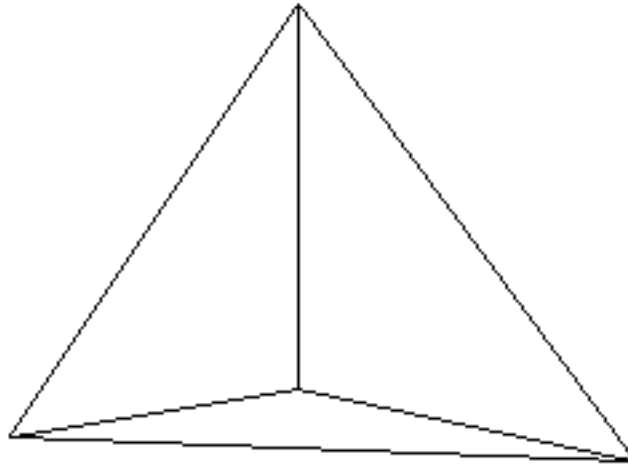

9. Click on the square one time. Go to Edit copy, then Edit paste.
10. Move the second square to page two. Repeat the copy and paste on all four pages.
11. Use the Text tool to write. Click on the text box to create handles. Go to Arrange - Free Rotate to turn the box so it will fit into the divided section of the square.

12. Repeat with the steps with the other squares.

Cut on line to the center. The square will then fold into a 3-D shape, by sliding the triangle without writing under the triangle with the upside down writing.

13. Staple the for 3D figures together. You have created a Pyramid book.
